

2Easy IX (Gen3) IP System Product White Book

Guangzhou Video-Tech Electronics Co., Ltd

3 Feb 2026

System Timeline

System Feature

NO IP Knowledge required

No need to worry about IP settings—our system automatically configures the network for you.

Door stations support **NVR**

Integrate the door-station camera with an NVR for centralized recording and enhanced security

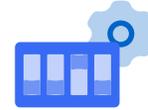

2Easy **API** Integration

The 2Easy IP system provides APIs for seamless 3rd system integration.

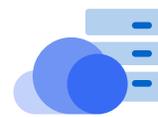

1080P fisheye camera

Wider coverage with a clearer 1080p image, plus improved night vision performance.

DIP Switch Addressing

Set device addresses the traditional way using DIP switches—simple and reliable.

VTK project **cloud** platform

Configure and manage the system remotely through the VTK cloud server.

Cybersecurity Compliance

Designed to comply with European cybersecurity norm requirements.

Database-Based Management

Supports larger capacity for cards/users and storage of call logs and other records.
